DNA TEST FOR LATE ONSET ATAXIA

Registered Name: Highland Downs Native Star

Registration Number: RN19775701

Microchip/ Tattoo Number: 151576173A

Breed: **Parson Russell Terrier**

This dog is CLEAR of Late Onset Ataxia

Authentication code: AC0246042

Explanation of terms:

These dogs have two normal copies of DNA and are likely to be clear of LOA. The results of our research suggest that there may be other causes of ataxia in the breed so we cannot exclude the formal possibility that clear dogs could develop a genetically different form of ataxia due to other mutations that are not detected by this test.

Result authorised by: Dr. N. G. Holmes (Genetic Services Manager)

Test completed: 9 April, 2013

Result only applies to sample supplied
